Our library is the biggest of these that have literally hundreds of thousands of different products represented.

Book Descriptions:

carver a-753x service manual

If you carefully read the OMs, you'll discover that the words for the Tracking Down Converter here referred to as Total Down Conversion, if memory serves are the essentially the same circuits. I always got a kick out of Bobs disregard for the sanctimonious nature of most HighEnd Branding, but others might think it a bit sacrilegious. The A Series were the BEST amplifiers in Carver Corporations long and distinguished line of achievements. Reviewed Feb 24th, 2016 by bluesman This is one of the greatest sounding amps I have ever listened to, Bass that is unreal without overpowering the mids and highs, Zero distortion!! super efficient amp runs cool all day long. To purchase A760X spares or accessories, please contact the company via their website or visit an authorised retailer. Free PDFs of owners and service manuals for practically anything ever made by Carver and Sunfire. and some Phase Linear stuff. If you want to get involved, click one of these buttons. Please register to gain access to more forums and information. See the Member Map here and other discussions related to the sites users. Do you have a feature request. Let us know how we can help. A big bookshelf with balls. I bet they, and you, will love the TFM45 driving them. Looking forward to your impressions. Part of that is I'm not into most of the typical shows, and part is I'm just so overwhelmingly sick and tired of paying for one service after another. I need my internet, and Website for obvious reasons, but I'm trying to ditch as many payasyougo things as I can. I will admit, my interests are not going to work for many, but I'm content with it, and it works on my various android boxes, tablets and PCs. I live in Northern California as well. Where is your city My name is Paul and I am in Santa Rosa. Create one here. I'll put it to you this way, he hooks up his highly acclaimed Carver Silver 7 tube It seems I fell into some luck as my AV 505 are one of the Jim Croft. <http://www.insource-inc.com/stock/userfiles/boss-pro-se-50-manual.xml>

• 1.0.

YOU ARE BIDDING ON A Carver M1.0t 2 Channel. VERY CLEAN. Available for. Any name can be ordered but please note this price is for a name with cubes only The fan noise has not changed in all the years I've owned it. Please contact us if you prefer to pay by bank transfer or personal cheque Just selling it because I purchased an upgrade. The amp has a very rich and warm sound, the tfm series simulates tube amplifier performance. No return or exchange will be accepted after delivery. Carver amplifier This is a Used but in very good condition. Available for just 380. So. Please be aware of that we will not offer refund just because you say so. Asking price is 100.00. The auction is for a used Professional Audio Bluetooth. The condition is good as shown in the

photos. <http://www.floramira.rs/images/pages/boss-ps-3-manual.xml>

You can place your bid against 81.52. It is available at Deliver. Carver amplifier for sale Unused Condition. Available for just 600. So Grab yourself a ba. You can start bidding for this product from just 430. The receiving location is Ithaca. Thanks for watching my listing. It may not display this or other websites correctly. You should upgrade or use an alternative browser. This amp has seen daily use in my home theater system for over 14 years now and I've never had a reason to open it up until now. Power switch was sticky and needed cleaned so I thought I would check it all out and clean it a little. It was Carver's best THX surround sound amp back in its day and the last of the series. I know some of the smaller multichannel Carver Amps have a mixed reputation but Ive never heard anyone have problems with the AV806X. Little squirt of the go juice and all was well. Checked the trim on the cards and they were all 5.5 to 11 mv. Anyone know the service specs on these. DC at the speaker lugs was around 0 to 5mv. Mine is dinged up and without the handles. This thing has a lot of bridging options but I cant tell how it is configured just by looking at it. Do you know how to bridge or unbridge this amp. Do you have the owners and service manuals. From looking at the boards, the bias TP and adjustment are labeled and the idling figure is stated as 20 mA. Im used to seeing bias values in mV and I see you are measuring in mV as well. Is the mA unit as printed on the PCB correctIf I remember correctly its from same line as the A753x and A500xs that Ive been using in my HT system for well over a decade and a half.I see AV705 and 505s pop up from time to time but rarely an 806. very cool stuff.Mine is dinged up and without the handles. This thing has a lot of bridging options but I cant tell how it is configured just by looking at it. Do you know how to bridge or unbridge this amp. Do you have the owners and service manuals.

From looking at the boards, the bias TP and adjustment are labeled and the idling figure is stated as 20 mA. Im used to seeing bias values in mV and I see you are measuring in mV as well. Is the mA unit as printed on the PCB correct. Click to expand. Yes, I have the OM and will get some bridging information but if I remember right there are a series of switches on the back.This amp has seen daily use in my home theater system for over 14 years now and I've never had a reason to open it up until now. Power switch was sticky and needed cleaned so I thought I would check it all out and clean it a little. It was Carver's best THX surround sound amp back in its day and the last of the series. I know some of the smaller multichannel Carver Amps have a mixed reputation but Ive never heard anyone have problems with the AV806X. Little squirt of the go juice and all was well. Checked the trim on the cards and they were all 5.5 to 11 mv. Anyone know the service specs on these. DC at the speaker lugs was around 0 to 5mv. My HR875 has the white boards. I guess the in between of phenolic and fiberglass. Click to expand. I would like to check the bias etc. DC output looks great. I might upgrade the RCA connections as they seem to have loosened up.I have the owners manual and I think have to look when i get home all the specs were in the last few pages. Mine was given to me by my father in law when he down sized his THX component rig to a PIONEER ELITE something or other. I was stunned to say the least when I powered it up and realized to kick it would deliver. Bridged to 360 was ridiculous. Nominal impedance 8 ohms. Minimum amplifier power 100W. Upgraded with 100% Pure Silver wiring18 gauge in all signal paths. Upgraded with super size Industrial Gde power transformer. Upgraded with Kimber Cable 8TC Telfon wires from Power Supply to Main unit. All aluminum case for nonmagnetic. ALPS audiophile grade volume control. All 6 tubes individually shielded Only 2 available.

This model Luxman A3550 was offered as a kit at a lower price than finished Luxman products. A pair of 4Ohm outputs were also retrofitted to match other 4ohms speakers original 8ohm outputs retained. Nickel handlessee the image below. Still the same low price!Shipment within 3 days upon receipt of payment. In this one area the SM70 Pro can compete with the very best amplifiers available, tube or solidstate." Frank Alles The Stereo Times. Recommended." Victor Chavira Positive Feedback. It has an expansive presentation and really lets the music breathe." Paul Cervantes
