dishwasher will stop and a period of condensation drying will occur. See section on Sanitization for more information. NOTE If your household water supply is too hot, your dishwasher's heating time may be reduced. Your Dishwasher Installation Manual has information on the recommended temperature for your dishwasher. NOTE To accelerate and enhance drying, open the dishwasher door, pull the top rack a few inches. Sanitized Light. When the Sanitized light appears, it means that the dishware and kitchenware that was washed is NSF certified. For more information on NSF certification, refer to the Wash Cycle. Information section of this manual.

Unloading the Dishwasher. Unload the bottom rack first. Unload the silverware baskets. They are easily removed for unloading. Unload the top rack. If the Extra Tall Item Sprinkler was installed, return the dishwasher to its normal condition. **Care and Maintenance. Maintenance Tasks.** Certain areas of your dishwasher require occasional maintenance. The maintenance tasks are: **Winterizing Your Dishwasher.** If your dishwasher will be unused for an extended period of time in a location that has freezing temperatures, you should winterize the dishwasher. See Figure 22, Figure 23, and Figure 24. **Cancel Drain.** Figure 21. Water may occasionally splash out of your dishwasher, especially if you interrupt a cycle or to avoid floor damage and possible mold growth, clean the outer edges of the inside door panel regularly to remove debris that might collect. If spots begin to appear on the stainless steel tub or inner door, make sure the rinse agent is used. **Occasionally check the spray arms to ensure that the spray arm nozzles holes are clear.** To remove the top spray arm: The top spray arm is held in position by a locking nut. To reinstall the top spray arm: To remove the bottom spray arm: To reinstall the bottom spray arm: Select models have an additional Micro Filter. The filter system is self-cleaning. You should occasionally inspect it for debris. The filter system is located on the inside of your dishwasher. Figure 25, Figure 26, and Figure 27. **During normal use, the filter system is self-cleaning. You should occasionally inspect it for debris.** If you find debris in the Large Object Trap, turn it to remove the Fine Filter. To reinstall the filter system: Your dishwasher's exterior door panel can be damaged. Figure 29, Figure 28, Figure 30, and Figure 31. **Fine Filter.** To open turn counterclockwise. To close turn clockwise. **Colored Doors.** Use only a soft cloth that is lightly dampened with soapy water. **Stainless Steel Doors.** Use a soft cloth with a nonabrasive cleaner preferably a liquid spray made for cleaning stainless steel.

For the best results, clean the Door Gasket and Door Seal. Regularly clean the door gasket with a damp cloth to remove food particles and other debris. Also clean the door seal, located at the bottom of the door. **Wash Cycle Information.** NOTE To save energy, this dishwasher has a "Smart Control" that automatically adjusts the cycle based on soil loads and water usage. The "Smart Control" makes decisions that can cause the cycle time and water usage to adjust. See the Cycles Chart to determine the cycles available for your specific model. NOTE On select models, the Half Load feature will reduce the water consumption by approximately 30 percent in the Power Scrub Plus, Regular, and Auto Wash cycles. The ECO option may be selected for the Power Scrub Plus, Auto, Regular and Delicate cycles on select models. This reduces energy consumption approximately 10% due to lower main wash and final rinse. **The NSF Symbol.** A dishwasher or a dishwasher cycle that has the NSF symbol has been certified by the NSF International to meet very strict requirements. More information on NSF Certification is available at the NSF website. Your dishwasher is NSF certified. The dishwasher cycles that are NSF certified are shown in the chart above. When these cycles are used, your dishwasher's heating time may be reduced and the "Sanitized" light will not come on. Your Dishwasher Installation Manual has information on the recommended temperature for your dishwasher. **Consumption.** Wash Temp F. Rinse Temp F. Cycle Time Minimum. Minimum. Maximum. Power Scrub Plus. Incoming Wash. Hold. Dishwashers may occasionally exhibit problems that are unrelated to a malfunction of the dishwasher itself. The following information may help you identify the problem: **Dishes do not dry.** The rinse agent dispenser may be empty. Check the rinse aid dispenser and refill it if necessary. Dishware drying can be accelerated and indicator lights do not come on. A fuse may have blown or a circuit breaker tripped. **Dishwasher does not start.**

The dishwasher door may not be properly shut. Make certain the dishwasher door is shut and latched. Dishwasher runs a long time. If the dishwasher completes the cycle, but the run time seems exceptionally long, it may be due to cold incoming water. Before starting Run the water until it runs hot, then turn off the water and Machine cycle does not advance to rinse. NOTE The Installation Manual that came with your dishwasher will help you with the following instructions. The water supply line may White spots left on dishes. More rinse agent is needed. Go to the Adding Detergent and Rinse Agent section of this manual for instructions on increasing the Water not pumped from dishwasher. Make certain the drain hose isn't kinked, clogged, or improperly installed. Make certain a portion of the drain hose is at least 20 inches Filters may be clogged. Make certain the filter system isn't clogged The kitchen sink drain may be clogged; you may need a plumber rather than a If an air gap is installed at sink, it may be clogged. Detergent dispenser cover will not shut. You may not be correctly shutting the detergent dispenser cover, or a cycle was not finished and should be cancelled. Go to the Adding. Detergent and Rinse Agent section of this manual for instructions on shutting the detergent dispenser cover. Go to the Operating the. Dishwasher section of this manual for instructions on canceling a cycle. Streaks on glassware. Too much rinse agent is being dispensed. Go to the Adding Detergent and Rinse Agent section of this manual for instructions on Rattling noises. Utensils may not be properly arranged. Suds in dishwasher. You may have used the wrong type of dishwashing detergent. Use only automatic dishwasher detergents.
